

## Core Values

### Values Create Value

At GESS International, our corporate mission is to provide comprehensive - and unparalleled - executive human resource solutions for our clients and strategic partners. When a company aims at being a partner and not merely a vendor it is important they be able to point to both the track record and values that make that possible.

Corporate ethics must go beyond words. A business is where values are transferred and trust engendered. Strong ethics mean superior employees helping you solve your corporate hiring needs. It also means those same people using their capabilities to help others.

The following core company values and experiences motivate, and keep, us as an industry leader while enhancing our business relationships and strengthening the community we live within.

As a company, GESS International:

- Acts and assumes that honesty and trust are the hallmarks of effective business discourse;
- Protects both client and candidate integrity;
- Makes no business statement that cannot be proven with examples;
- Ensures all consultants are professionally trained;
- Communicates clearly and effectively with no jargon;
- Marshals the resources of the entire company to serve the client;
- Stays on the leading edge of technology and innovation;
- Provides an open, respectful, trusting and challenging environment for our employees;
- Ensures that corporate and private philanthropy are fostered; and
- Upholds personal and corporate responsibility through all our actions.

The following are a few of the organisations that GESS International, and, or its employees have contributed to on a regular basis.
